TERMOPLUS

A premix of essential oils and specific mineral salts to reduce heat stress in ruminants

How to detect heat stress

- Overcrowding of animals in wet areas
- Increase in rectal temperature
- More percentage of animals increase in standing time
- Decreased milk quality

Advantages of the product

- Increase in the anion-cation balance
- In the central nervous system, it inhibits the satiety centre and reduces gastrointestinal transit

Benefits of use

- Maintains the consumption of dry matter
- Helps eliminate body heat
- Prevents ruminal acidosis
- Improves fertility
- Regulates the immune response against heat stress

↓
Helps maintain production

↓
Increased farm profitability

Use: 100 g / cow / day when the ambient temperature is higher than 25 °C
Remove the salt from the daily ration
