- 30 Kg bag, with 3 layers, with the inner one plasticised

Size of the bag: 55x81+13/2

Kraft paper

PVC Plastic.

Based in the statement of our providers, we warrant that all components (kraft paper, polyethylene, adhesives, inks and varnishes) used in the manufacturing of our sacks fulfill with:

- Traceability requirement of Regulation (CE) N° 1935/2004,
- Requirement of maximum quantity of 100 ppm in the sum of Lead (Pb), Cadmium (Cd), Mercury (Hg) and Hexavalent Chromium (Cr VI) of Regulation 94/62 CE referring to the packaging and waste of packaging and all its later emendation.
- Requirements of Regulation CE 10/2011 and its later emendation related to plastic materials which could be in contact to food product.

Packaging has been made with processes and also procedures which assure that good manufacturing practice and can be considered adequate to food contact, according to Directive (CE) n° 1935/2004, which derogates Directives 80/500/CEE and 89/109/CEE.

In normal and predictable conditions of use, packaging does not transfer its components to food in quantities which might harm the human health, o provoke an unacceptable modification of them.

Barcelona, 2019
